

JOHNNY WARREN

3 yr. term

GOALS:

My goal as a board member is to stand up for our community and what is best for it, voting in a non biased way. I want to work with the board to improve our roads, and to hold the county accountable for their roads and ditches. I want to continue working to make all our parks safe and usable for all the children of our community. To work with the board on making the docks more secure for proper POA use.

EXPERIENCE:

I have been appointed to the past 3 boards. I have worked with sanitation, roads, and been over the pool.

I have been on the tractor fixing roads and ditches (2023 - 2024), and the past year have supervised as the road crew has worked to improve the (non-county) roads. I drive all the roads regularly to make sure emergency vehicles and Meals on Wheels can get to each and every one of us, and let the road crew know what needs to be fixed. I have strived to make sure all your complaints have been seen to in a timely manner, within reason and budget.

I started the board getting bids on the new boat docks 2 years ago. My wife and I started the vender event where all proceeds go to new park equipment. We have supported and helped with Trunk or Treat, the Easter Egg hunt this year, and will continue to help with community events in the future.

Last year I was over the pool. I strived to make it more family friendly, and to make sure the rules were being followed. I petitioned the board to extend the hours and days.

CONCLUSION:

I would like the opportunity to continue to offer my services, and doing my best to uphold the best interest of the property owners of Cherokee Shores..
