

Resume of Mark Lancaster,

I am running for Finance Director. My business acumen comes from decades in middle to upper management in the printing trade where I implemented color management practices using scientific definitions, measured by spectrophotometry.

I retired a few years ago and moved to Cherokee Shores. Since then, I represented Cherokee Shores as Finance Director, and have initiated cost savings and increased productivity in our office.

We now have much more effective Internet Service Provider at about half the price of the previous vendor. Our phone system is currently being upgraded, and is also expected to provide a cost savings while being much more productive.

I am often available to help other departments. Help out with Parks & Pools, and Roads when needed. Assisted with repair and maintenance of the Mahindra tractor, and directed the placement of our new playground equipment. I am personally involved in this community all the time.

If you would like me to continue these efforts, kindly cast a vote for me.

Best regards,
Mark Lancaster
